Designer Jackie Glass shares her favourite products that are sure to keep your kitchen design on trend.

1. Shun Fuji 6" Chef's Knife with Stand

The best and most used tool in my kitchen is my high-quality chef's knife. The Shun Fuji six-inch chef's knife with stand, is as beautiful as it is useful for any self-respecting home chef. Buy it once for life!

2. Abbott Zinc-Top Island

The portable, multi-purpose Abbott zinc-top island can be used for food prep, serving meals, as a bar cart, or baking centre. With all its storage, a durable surface and wheels for easy portability, it's the perfect addition to any kitchen!

3. Breville Hemisphere Pro

To get my busy day started with a high-energy juice drink, my Breville Juice Fountain Plus is always ready on my kitchen counter. It packs a punch at 30% more juice and 40% more vitamins than other juicers and is lightning quick and simple to clean. I can make one for the whole family before heading out the door!

4. Magimix by Robot-Coupe Vision Toaster

From making my crostini to toasting bagels and making my son's favourite bacon & tomato sandwiches, the toaster in my kitchen has to be durable. I love the speed, extra-wide slots, defrost setting and its stunning good looks!

5. Bosch Speed Microwave Oven

On my wish list, the new flush-install, built-in Bosch Speed Microwave Oven pairs the qualities of a conventional oven with the speed of microwave technology. I'm all for faster and easier! - Text by Jackie Glass

Jacqueline Glass

Canadian Home Trends Where did your inspiration come from for this design concept?

Jackie Glass The design inspiration came from Pia and her family's love for entertaining. She wanted to create an inviting and bright space that would comfortably accommodate her family

and friends when entertaining and have a subtle, formal aesthetic.

CHT How would you go about styling this kitchen for the holidays?

JG I'd add even more white in this white kitchen at Christmas. Luxe, white, faux fur cushions, several white amaryllis in white glazed ceramic pots, and white china with touches of cut glass and silver for instant glam and gorgeous seasonal sophistication.

CHT What is the most common mistake homeowners make when painting their kitchen cabinetry white?

JG Thinking that it doesn't show marks. It does, but if properly painted by a company specializing in painting cabinetry, white cabinetry can be easily cleaned and maintained.
